Summary

Frontend Developer & UI/UX Designer with 5 years of experience delivering sleek, conversion-focused web applications. Skilled in Angular and React, transforming complex UI/UX designs into seamless, user-friendly products. Strong background in GIS analysis with hands-on expertise in ArcGIS, able to analyze spatial data and turn insights into interactive visualizations. Known for integrating backend systems with sophisticated frontend components to ship fast, scalable solutions. Proven track record of enhancing products for startups and SaaS companies by combining pixel-perfect design with clean, production-ready code.

Skills

Industry Knowledge: Global Positioning System (GPS), Topographic Surveys, Software Development, Research, Spatial Analysis, Web Development, Digital Marketing, Computer Graphics Design, Typing, GIS Analysis

Tools & Technologies: Next, AngularJS, HTML, CSS, Bootstrap (Framework), Tailwind CSS, Angular CLI, Angular Material, AutoCAD, React.js, ArcGIS Desktop, Quantum GIS, Relational Databases, HTML5, Cascading Style Sheets (CSS), JavaScript, Microsoft Word, Geographic Information Systems (GIS), GIS Software, CSS, GraphQL, Redux, ES6+, RESTful APIs, Three.js, Gsap, Framer Motion.

Interpersonal Skills: Communication

Additional Technical Skills: Object-oriented design, Source code control, AI/ML concepts

Work Experience

Foxy Labs

Frontend Developer

Maitama, Federal Capital Territory, Nigeria

Aug 2024 - Present

- Transforms UI/UX designs into interactive React components, fostering creativity and innovation in web development.
- Ensures device-optimized websites for consistent user experiences using HTML5 and CSS3.
- Builds reusable, maintainable components adhering to best practices for scalable and efficient front-end architecture, leveraging ES6+ JavaScript features.
- Collaborates with diverse teams to execute project timelines and deliver high-quality web applications.
- Conducts rigorous testing and debugging for application stability, utilizing React/Redux components.
- Utilizes Git for efficient version control and collaboration on technology products throughout their lifecycle.

Fiverr

Geographic Information Systems Surveyor

Jan 2021 - Present

- Analyzed spatial data through the use of mapping software technology for pattern and trend discovery.
- Designed digital maps with geographic data, integrating multiple databases such as MySQL for comprehensive spatial analysis.
- Created 'shapefiles' to merge topographical data with external data by layering external data over a topographical map, utilizing object-oriented design techniques.

Balancee Tech Solution Ltd

Frontend Developer

Lagos State, Nigeria

Sept 2024 – Dec 2024

- Developed dynamic, responsive React components based on UI/UX designs, contributing to an intuitive and engaging user experience on the Balancee platform.
- Leveraged **Redux** for robust state management across complex application flows, ensuring seamless data synchronization and component interaction.
- Integrated **GraphQL** APIs to optimize data fetching, enabling efficient querying and reducing over-fetching across components.

Ascetic Capital LLC

Senior Frontend Engineer

Sheridan, WY, USA

Aug 2024 – Oct 2024

- Implemented **Zenpayment gateway integration**, facilitating seamless, secure payout and transaction workflows across the platform.
- Integrated a **live chatbot** for real-time user assistance, improving support response times and overall customer experience.
- Optimized front-end performance by refactoring components and improving load times, resulting in a faster and smoother user experience.

DGIS

Benin, Nigeria

Geomatics Engineer

Jul 2024 - Aug 2024

- Expertly utilize ArcGIS for comprehensive map creation and spatial analysis.
- Digitize and manage geospatial data, ensuring high-quality and up-to-date datasets for project use.
- Assists in the preparation of technical drawings, maps, and reports for presentation to clients and regulatory bodies.
- Utilizes GPS and total station equipment for precise measurements and data collection.
- Creates detailed engineering plans and profiles in Civil 3D, aiding in the design and execution of civil engineering projects.

Mercator Technologies Ltd

Lagos State, Nigeria

Frontend Web Developer

Nov 2023 - Jun 2024

- Lead the development and implementation of intricate frontend components to enhance usability and interactivity within fintech applications.
- Leveraged UI/UX principles to design responsive interfaces that cater to diverse user needs and expectations.
- Integrated complex backend functionalities seamlessly with frontend features to deliver comprehensive fintech platforms using AngularJS.
- Actively engaged in code reviews, performance optimizations, and continuous learning initiatives to enhance technical expertise and team collaboration.
- Participated in strategic planning and decision-making processes to align software development efforts with business objectives and market trends.

PhreeTech

Lagos State, Nigeria

Frontend Developer Intern

Jul 2023 - Sep 2023

- Refined expertise in version control systems for seamless project management.
- Mastered Angular, successfully delivering two robust projects in collaboration with peers.
- Gained proficiency in Jira, optimizing project workflows and team coordination.
- Collaborated with a team of interns to elevate branding and user experience.

Education

University of Benin

Bachelor's degree, Geomatics

Jan 2024

- Achievements: 4.35 GPA, Awarded University of Benin Scholar Prize, for being the best graduating student in academic performance in 200 level, Department of Geomatics, Awarded National Association of Nigerian Students Certificate of Excellence for service as a president in the Department of Geomatics, University of Benin

Projects

PhreeTech

propell-ten.vercel.app/

Propell Aug 2023 - Sep 2023

- A comprehensive content management and marketing (CMM) platform designed to streamline the creation, management, and distribution of digital content.
- Propell enables businesses to efficiently manage their online presence, engage with their audience, and drive marketing efforts through powerful tools and analytics.
- Collaborated on this project during my internship, contributing to the frontend development using Angular to implement the UI/UX designs.

PhreeTech

review-nest-7w4m-git-master-efaeifaizesogie.vercel.app/

ReviewNest App

Jul 2023 - Aug 2023

- Contributed as an Angular Frontend Developer for Reviewnest, an empowering platform built for small businesses to gather customer insights and reviews, leveraging UI/UX designs.
- I helped bring the platform to life and enhance user experience.
- Our team's efforts aimed at driving business growth and enabling data-driven decisions while empowering small businesses without websites or applications.
